## The company demonstrates a strong overall performance

“The European Technology Innovation Leadership Award in the gastroesophageal reflux disease therapy device industry is awarded to Implantica. Frost & Sullivan commends Implantica’s development of its groundbreaking technology, RefluxStop, a medical implant that restores the natural anatomy of the esophageal sphincter and successfully treats gastroesophageal reflux disease without affecting the food passageway. RefluxStop’s unique design and use of solid medical-grade silicone offers optimal flexibility and durability, providing maximum safety, superiorly treating a pathological low pH in lower esophagus (causing heartburn and cancer) and lowering the economic burden on both patients and society.
