

# Implantica to present at Digital Medicine & Medtech Showcase 2022

**Implantica AG (publ) announces today that its founder and CEO, Peter Forsell, is presenting, Implantica – the future of eHealth, in an online presentation at the Digital Medicine & Medtech Showcase taking place virtually on January 10-12 and January 17-19, 2022.**

In his presentation, Peter Forsell shares Implantica's eHealth and wireless energised technology platforms and prioritised products as well as RefluxStop™, the CE marked product to treat acid reflux.

Implantica's video presentation was made available by the Digital Medicine & Medtech Showcase to registered participants on its partneringONE platform and may be viewed at: <https://vimeo.com/662821271/fae32fda2e>. Since the Digital Medicine & Medtech Showcase is a virtual conference, the presentation has been pre-recorded and there is no set schedule for presenting companies. The presentation will also be available on Implantica's website, [www.implantica.com](http://www.implantica.com), under investors.

Digital Medicine & Medtech Showcase is part of Biotech Showcase, which is an investor and networking conference devoted to providing private and public life science companies with an opportunity to present to, and meet with, investors and key stakeholders developing digital therapeutics, AI and Machine Learning tools, medical devices and other innovative technical advances in one place.

## **About Implantica**

Implantica is a medtech group dedicated to bringing advanced technology into the body. Implantica's lead product, RefluxStop™, is a CE-marked implant for the prevention of gastroesophageal reflux that will potentially create a paradigm shift in anti-reflux treatment as supported by successful clinical trial results. Implantica also focuses on eHealth inside the body and has developed a broad, patent protected, product pipeline based partly on two platform technologies: an eHealth platform designed to monitor a broad range of health parameters, control treatment from inside the body and communicate to the caregiver on distance and a wireless energising platform designed to power remote controlled implants wirelessly through intact skin.

Implantica is listed on Nasdaq First North Premier Growth Market (ticker: IMP A SDB).
