Implantica publishes Interim Report January – June 2026 (Q2)

FDA APPROVAL OF REFLUXSTOP® – STRATEGIC PREPARATION SETS THE STAGE FOR SUCCESS

Significant events in the second quarter of 2026

- RefluxStop® sales increased by more than 60% compared with the prior-year period, reflecting continued commercial growth across key European markets
- Largest independent RefluxStop® study to date published in *Nature's Scientific Reports*, reporting mid- to long-term safety outcomes in 602 patients across 22 centers in six European countries, with serious safety events and reoperations below 2%
- Clinical, health-economic and reimbursement evidence further strengthened, including new Italian cost-effectiveness data and the addition of a seventh InEK-reporting hospital in Germany supporting the reimbursement pathway

Significant events after the end of the period

- FDA PMA approval secured for RefluxStop®, opening the U.S. market and enabling the start of U.S. commercial launch activities
- U.S. market entry underway, with expansion of the U.S. organization and establishment of logistics and distribution infrastructure
- European market presence continued to expand, including the 20th Center of Excellence in Spain at MD Anderson Madrid and new Centers in Switzerland and the UK, bringing the European network to more than 60 Centers of Excellence

Financial summary second quarter

- Net sales increased by 66% to TEUR 717 (433).
- Adjusted gross margin amounted to 94% (90%).
- Operating loss (EBIT) decreased to TEUR 4,200 (4,525).
- Loss after tax amounted to TEUR 3,987 (5,448).
- Basic and diluted loss per Class A share amounted to EUR 0.06 (0.08).
- Cash and cash equivalents as at the end of the period of MEUR 41.7.

Financial summary first six months

- Net sales increased 34% to TEUR 1,574 (1,178).
- Adjusted gross margin amounted to 94% (94%).
- Operating loss (EBIT) decreased to TEUR 8,058 (8,698).
- Loss after tax amounted to TEUR 8,267 (8,212).
- Basic and diluted loss per Class A share amounted to EUR 0.12 (0.12).

About Implantica

Implantica is a medtech company focused on bringing advanced implantable technologies into the body designed to improve patient outcomes and quality of life. The company's lead product, RefluxStop®, is an FDA approved and CE-marked implant for the treatment of gastroesophageal reflux disease (GERD) with the potential to transform the standard of care in anti-reflux surgery, supported by strong long-term clinical outcomes.

In addition to RefluxStop®, Implantica has developed a broad, patent-protected product pipeline partly incorporating two platform technologies: an eHealth platform designed to enable communication with and remote monitoring and control of implants inside the body, and a wireless energizing platform designed to wirelessly power implantable devices through intact skin. These investigational devices are intended to facilitate remote changes to treatment, potentially saving cost for society.

Implantica is listed on Nasdaq First North Premier Growth Market (ticker: IMP A SDB). Visit www.implantica.com for further information.
